During the three months ending September 30, 2005 and 2004 AXIS charged interest of A\$7,906 and A\$1,598, respectively, on outstanding balances. The interest rate charged by AXIS for the three months ended September 30, 2005 was 9.35% compared to between 10.10% and 10.60% for the three months ended September 30, 2004. At September 30, 2005 the Company owed AXIS A\$405,705. These entities are affiliated through common management and ownership.

Wilzed Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. (4) Going Concern

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources as a going concern. Bay Resources is in the exploration stage, has sustained recurring losses and has a net working capital deficiency which raises substantial doubts as to its ability to continue as a going concern. However, Bay Resources anticipates that it will be able to defer repayment of obligations until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies, Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangement for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

The accumulated deficit of the Company from inception through September 30, 2005 amounted to A\$31,721,000 of which A\$5,319,000 has been accumulated from July 2002, the date the Company entered the Exploration Stage, through September 30, 2005.

(5) Income Taxes

Bay Resources should have carry forward losses of approximately US\$19.4 million as of June 30, 2005 which will expire in the various years through 2024. Bay Resources will need to file tax returns for those years having losses on which returns have not been filed to establish the tax benefits of the net operating loss carry forwards. Due to the uncertainty of the availability and future utilization of those operating loss carry forwards, management has provided a full valuation against the related tax benefit.

(6) Employment Contract

In October 2004, the Company entered into an employment agreement with a new Chief Operating Officer. The agreement expires on December 31, 2006 and provides for an annual salary of US\$110,000. As part of this employment contract, the Company granted options to purchase 750,000 shares of the Company common stock at US\$1.00 per share (see Note 7). The 750,000 options vest as follows: 250,000 immediately, 250,000 on September 1, 2005 and 250,000 on December 31, 2006. The issue of the second 250,000 and third 250,000 options are subject to availability of options in the Stock Option Plan.

(7) Issue of Options under Stock Option Plan

In October 2004, the Board of Directors and Remuneration Committee of the Company adopted a Stock Option Plan and agreed to issue 1,400,000 options and up to a further 500,000 options to acquire shares of common stock in the Company, at an exercise price of US\$1.00 per option, subject to shareholder approval which was subsequently received on January 27, 2005. Of the total 1,400,000 options issued, 350,000 vest immediately following shareholder approval, 50,000 vest on March 31, 2005, 333,331 vest on July 27, 2005, 333,334 vest on January 27, 2006 and the balance of 333,335 vest on July 27, 2006. If the additional 500,000 options are granted, they will vest 250,000 on October 31, 2005 and 250,000 on December 31, 2006. The exercise price of US\$1.00 was derived from the issue price of common stock from the placement of shares on March 31, 2004 and is considered by the Company's Directors to be the fair value of the common stock. The options expire on October 15, 2014.

The Company has accounted for all options issued in 2005 based upon their fair market value using the Black Scholes pricing model. There were no options issued by the Company in 2004.

(7) Issue of Options under Stock Option Plan (Cont'd)

The Company has calculated the fair value of the options using the Black Scholes valuation method using a share price of US\$1.00, strike price of US\$1.00, maturity period of 5 years 7 ½ months, risk free interest rate of 5.15% and volatility of 20%. This equates to a value of US31.85 cents per option. The total value of the options equates to A\$575,100 (US\$445,900) and has been reflected as Deferred Compensation Expense within the Shareholders Equity Section of the Balance Sheet. The gross fair value is amortised into operations over the vesting period. For the quarter ended September 30, 2005, the amortization amounted to A\$78,012.

During the three months ended September 30, 2005, 50,000 options lapsed when Mr P. Ehrlich resigned as a Director.

A summary of the options outstanding and exercisable at September 30, 2005 are as follows:

	Outstanding	Exercisable
Number of options	1,350,000	716,666
Exercise price	US\$1.00	US\$1.00
Expiration date	October 15, 2014	October 15, 2014

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar and Canadian dollar during the periods indicated:

3 months ended September 30, 2004	A\$1.00 = US\$.7168
3 months ended September 30, 2005	A\$1.00 = US\$.7603
3 months ended September 30, 2004	A\$1.00 = CDN\$.9172
3 months ended September 30, 2005	A\$1.00 = CDN\$.8905

RESULTS OF OPERATION

Three Months Ended September 30, 2005 vs. Three Months Ended September 30 2004.

Costs and expenses decreased from A\$1,318,000 in the three months September 30, 2004 to A\$308,000 in the three months ended September 30, 2005. The Company's financial statements are prepared in Australian dollars (A\$). A number of the costs and expenses of the Company are incurred in US\$ and CDN\$ and the conversion of these costs to A\$ means that the comparison of September 2005 to 2004 does not always present a true comparison. The decrease in expenses is a net result of:

- a) an increase in interest expense (net) from A\$3,000 for the three months ended September 30, 2004 to A\$26,000 for the three months ended September 30, 2005. AXIS provides management and geological services to the Company pursuant to a Service Deed dated November 25, 1988. AXIS charged A\$7,906 in interest at a rate of 9.35% for the three months to September 30, 2005 compared to 10.10% and 10.60% for fiscal 2004. Wilzed loaned further funds to the Company during the quarter and charged A\$16,834 in interest.
- b) a decrease in legal, accounting and professional expense from A\$39,000 for the three months ended September 30, 2004 to A\$15,000 for the three months ended September 30, 2005 primarily as a result of decrease in share register activity reducing the fee for maintenance of the records by the external share registrar.
- c) a decrease in administrative costs including salaries from A\$220,000 in the three months ended September 30, 2004 to A\$151,000 in the three months ended September 30, 2005. In September 30, 2004 quarter, external consultants were used to undertake work in respect to the Company's Toronto Venture listing in Canada. No such costs were incurred in the September 30, 2005 quarter; and as a result of the reduced activity, salaries charged to the Company by AXIS decreased by \$23,000. Other than the direct costs charged by AXIS, there was no comparable cost in the prior comparable quarter.
- d) a decrease in the exploration expenditure expense from \$1,056,000 for the three months ended September 30, 2004 to \$38,000 for the three months ended September 30, 2005. No field exploration has been undertaken during the 2005 field season due to the high level of field exploration in the 2004 field season and lack of funding.
- e) an increase in stock based compensation from A\$nil for the three months ended September 30, 2004 to A\$78,000 for the three months ended September 30, 2005. Following shareholder approval on January 27, 2005 the Company issued 1,400,000 options pursuant to the 2004 Stock Option Plan. Of the total 1,400,000 options issued, 350,000 vest immediately following shareholder approval, 50,000 vest on March 31, 2005, 333,331 vest on July 27, 2005, 333,334 vest on January 27, 2006 and the balance of 333,335 vest on July 27, 2006. If the additional 500,000 options are granted, they will vest 250,000 on October 31, 2005 and 250,000 on December 31, 2006. The exercise price of US\$1.00 was derived from the issue price of common

stock from the placement of shares on March 31, 2004 and is considered by the Company's Directors to be the fair value of the common stock.

The Company has calculated the fair value of the 1,400,000 options issued in January 2005 using the Black Scholes valuation method using a share price of US\$1.00, strike price of US\$1.00, maturity period of 5 years 7 ½ months, risk free interest rate of 5.15% and volatility of 20%. This equates to a value of US\$31.85 cents per option or a total of A\$575,100. Of this amount, A\$78,012 has been amortised and charged to operations in the September 2005 quarter.

As a result of the foregoing, the loss from operations decreased from A\$1,318,000 for the three months ended September 30, 2004 to A\$315,226 for the three months ended September 30, 2005.

The net loss was A\$315,000 for the three months ended September 30, 2005 compared to a net loss of A\$1,318,000 for the three months ended September 30, 2004.

Liquidity and Capital Resources

For the September quarter of 2005, net cash used in operating activities was A\$173,000 primarily consisting of the net loss for the quarter of A\$315,000; increases in accounts payable and accrued expenses of A\$31,000; an increase in receivables of A\$2,000; stock based compensation was A\$78,000; and accrued interest added to principal was A\$26,000.

As of September 30, 2005 the Company had short-term obligations of A\$648,000 comprising accounts payable and accrued expenses.

We have A\$7,000 in cash at September 30, 2005. The Company anticipates that it needs to spend \$500,000 on legal, professional, accounting and administration expenses over the next 12 months. We are investigating the possibility of raising through "flow financing" in Canada for exploration purposes and/or other finance for exploration and working capital purposes.

We have been preparing a listing application for the dual listing of our shares of common stock on TSX-V. The listing application was lodged with TSX-V in June 2004 and we are currently in the process of responding to questions raised by TSX-V. We believe that a dual listing of our shares of common stock will provide liquidity in our shares. There can be no assurance that the dual listing on TSX-V will eventuate or that such listing will create an increase in the volume of trading of our shares of common stock.

Other than the arrangements above, the Company has not confirmed any further arrangements for ongoing funding. As a result, the Company will be required to raise funds from additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

The Company will require substantial additional capital over the next year in order to satisfy existing liabilities and to provide funding to achieve its current business plan. Failure to obtain such capital could adversely impact the Company's operations and prospects.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.
