Item 1. FINANCIAL STATEMENTS

Introduction to Interim Financial Statements.

The interim financial statements included herein have been prepared by Bay Resources Ltd. ("Bay Resources" or the "Company") without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (The "Commission"). Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended June 30, 2004.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the financial position of the Company and subsidiaries as of December 31, 2004, the results of its operations for the three and six month periods ended December 31, 2004 and December 31, 2003, and the changes in its cash flows for the six month periods ended December 31, 2004 and December 31, 2003, have been included. The results of operations for the interim periods are not necessarily indicative of the results for the full year.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN AUSTRALIAN DOLLARS.

BAY RESOURCES LTD. AND SUBSIDIARIES
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
December 31, 2004

(1) Organisation

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Edensor owned 41.3% of Bay Resources as of December 31, 2004, 2004. During fiscal 1998, Bay Resources incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com Pty Ltd has not traded since incorporation. On August 21, 2000, Bay Resources incorporated a new wholly owned subsidiary, Bay Resources (Asia) Pty Ltd (formerly Bayou International Pty Ltd), a corporation incorporated under the laws of Australia. In June 2002, the Company incorporated a new wholly owned subsidiary, Golden Bull Resources Corporation, formerly 4075251 Canada Inc, a corporation incorporated under the laws of Canada. Golden Bull Resources Corporation is undertaking exploration activities for gold in Canada.

(2) Affiliate Transactions

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation.

During the six months ending December 31, 2004 and 2003, Bay Resources paid management fees to AXIS Consultants ("AXIS"), an affiliated management company, in the amounts A\$60,000 and A\$60,000, respectively, reimbursed AXIS A\$145,779 and A\$14,484 for direct costs, including salaries, incurred on behalf of the Company, respectively and paid an amount of A\$105,120 owing to AXIS at June 30, 2004. At December 31, 2004 and 2003, the Company owed AXIS A\$nil and A\$623,707, respectively, for services provided in accordance with the Service Agreement. During the six months ending December 31, 2004 and 2003, AXIS charged interest of A\$4,613 and A\$27,530, respectively, on outstanding balances. AXIS is affiliated through common management and ownership.

Wilzed Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. During the six months ending December 31, 2004, Wilzed loaned the Company A\$574,078 and charged interest of A\$2,729. At December 31, 2004, the Company owed Wilzed A\$576,807.

Chevas Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. At June 30 2003, the Company owed Chevas A\$1,239,315. During the six months ending December 31, 2003, Chevas loaned a further A\$85,209 and charged A\$57,775 in interest to the Company on the loan account. At December 31, 2003 the Company owed Chevas A\$1,382,299. The amount owed to Chevas was repaid in full in March 2004. At December 31, 2004 there are no amounts owing to Chevas.

At June 30, 2003, the Company owed Tahera A\$1,361. During the six months ending December 31, 2003 Tahera incurred further exploration and administration costs in Canada on behalf of the Company amounting to A\$9,130. During the six months ending December 31, 2003, Tahera did not charge the Company interest on amounts outstanding. At December 31, 2003, the Company owed Tahera \$1,339. Mr. JI Gutnick, the President of the Company, ceased to be the President and Chairman of Tahera in October 2003 and the Company's principal stockholder, Edensor Nominees Pty Ltd., of which Mr. Gutnick is a director and shareholder, ceased to be a major stockholder of Tahera in October 2003.

BAY RESOURCES LTD. AND SUBSIDIARIES
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
December 31, 2004

(3) Affiliate Transactions (Cont'd)

During the year ended June 30, 2003, Mr JI Gutnick paid certain amounts owing to Tahera on behalf of the Company and at December 31, 2003, the amount of \$47,000 was owing to Mr Gutnick. This amount was repaid in March 2004.

Quantum Resources Limited ("QUR"), a company associated with, Mr J I Gutnick, incurred certain costs on behalf of the Company during the six months ended December 31, 2003 amounting to A\$43,941 in respect to the Company's activities in Tibet China as a result of QUR's contacts in China. This amount remained outstanding and was included in accounts payable and accrued expenses at December 31, 2003. The amount was repaid in March 2004.

Kerisridge Pty Ltd, an entity associated with Mr J I Gutnick, loaned the Company A\$2,273,186 in March 2004 for the purpose of repaying long term debt. On March 31, 2004, Kerisridge agreed to convert all of the debt owed to them into common stock and warrants of the Company. The Company issued 1,753,984 shares of common stock and 1,753,984 warrants exercisable at US\$1.30 per share and at any time up to March 31, 2006 in full repayment of the \$2,273,186 owing to Kerisridge.

On February 19, 2004 Edensor Nominees Pty Ltd ("Edensor") advised the Company that it was exercising the 6,000,000 options for common stock of the Company it held utilizing the cashless exercise feature of the terms and conditions of the issue of the options. The Company issued 5,142,857 shares of common stock to Edensor on March 3, 2004 as a result of the exercise of the options.

Interest expense incurred on loans and advances due to affiliated entities approximated A\$7,342 and A\$85,305 in the six months ended December 31, 2004 and 2003, respectively.

(4) Going Concern

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources as a going concern. Bay Resources is in the exploration stage, has sustained recurring losses and has a net working capital deficiency which raises substantial doubts as to its ability to continue as a going concern. However, Bay Resources anticipates that it will be able to defer repayment of obligations until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies, Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangement for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

BAY RESOURCES LTD. AND SUBSIDIARIES
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
December 31, 2004

(5) Income Taxes

Bay Resources should have carry forward losses of approximately US\$20.5 million as of June 30, 2004 which will expire in the years 2005 through 2023. Bay Resources will need to file tax returns for those years having losses on which returns have not been filed to establish the tax benefits of the net operating loss carry forwards. Due to the uncertainty of the availability and future utilization of those operating loss carry forwards, management has provided a full valuation against the related tax benefit.

(6) Contingent Liabilities

The Company has received an invoice from a corporation that conducted the pegging of the claims in Canada on behalf of the Company. A number of claims that were pegged were not ultimately issued to the Company due to a number of errors by the pegging Company. The Company had advised the pegging company that it does not believe any further payments are due to the pegging company as a result of the economic loss incurred by Bay Resources. The Company believes that if it is unsuccessful in defending any claim that is brought against it, the maximum potential liability is CDN\$59,000. No accrued liability has been recorded in the accompanying financial statements pending the ultimate disposition of this matter.

(7) Employment Contract

In October 2004, the Company entered into an employment agreement with a new Chief Operating Officer. The agreement expires on December 31, 2006 and provides for an annual salary of US\$110,000. As part of this employment contract, the Company granted options to purchase 750,000 shares of the Company common stock at US\$1.00 per share (see Note 8). The 750,000 options vest as follows: 250,000 immediately, 250,000 on September 1, 2005 and 250,000 on December 31, 2006. The issue of the second 250,000 and third 250,000 options are subject to availability of options in the Stock Option Plan.

(8) Events Subsequent to Balance Date

In October 2004, the Board of Directors and Remuneration Committee of the Company adopted a Stock Option Plan and agreed to issue 1,400,000 options and up to a further 500,000 options to acquire shares of common stock in the Company, at an exercise price of US\$1.00 per option, subject to shareholder approval which was subsequently received on January 27, 2005. Of the total 1,400,000 options issued, 350,000 vest immediately following shareholder approval, 50,000 vest on March 31, 2005, 333,331 vest on July 27, 2005, 333,334 vest on January 27, 2006 and the balance of 333,335 vest on July 27, 2006. If the additional 500,000 options are granted, they will vest 250,000 on October 31, 2005 and 250,000 on December 31, 2006. The exercise price of US\$1.00 was derived from the issue price of common stock from the placement of shares on March 31, 2004 and is considered by the Company's Directors to be the fair value of the common stock.

The Company plans to account for stock-based employee compensation arrangements using the intrinsic value method in accordance with provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees". Under APB Opinion No. 25, compensation cost is generally recognized on the date of grant based on the difference, if any, between the fair value of the Company's stock and the amount an employee must pay to acquire the stock.

In December 2004, the Financial Accounting Standards Board issued Statement Number 123 (revised 2004) ("SAS 123 (R)"), Share-Based Payments. SAS 123 (R) requires all entities to recognize compensation expense in an amount equal to the fair value of share-based payments, such as stock options granted to employees. The Company is required to apply SFAS 123 (R) on a modified prospective method. Under this method, the Company is required to record compensation expense (as previous awards continue to vest) for the unvested portion of previously granted awards that remain outstanding at the date of adoption. In addition, the Company may elect to adopt SFAS 123 (R) by restating previously issued financial statements, basing the amounts on the expense previously calculated and reported in their pro forma disclosures that had been required by SFAS 123. For public entities that file as small business issuers SFAS 123 (R) is effective as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. Management has not completed its evaluation of the effect that SFAS 123 (R) will have, but believes that the effect will be consistent with the application disclosed in its pro forma disclosures.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar and Canadian dollar during the periods indicated:

6 months ended December 31, 2003	A\$1.00 = US\$0.68
6 months ended December 31, 2004	A\$1.00 = US\$0.78
6 months ended December 31, 2003	A\$1.00 = CDN\$0.97
6 months ended December 31, 2004	A\$1.00 = CDN\$0.94

RESULTS OF OPERATION

Three Months Ended December 31, 2004 vs. Three Months Ended December 31 2003.

Costs and expenses increased from A\$155,000 in the three months December 31, 2003 to A\$377,000 in the three months ended December 31, 2004. The Company's financial statements are prepared in Australian dollars (A\$). Since December 31, 2003 the A\$ compared to the United States dollar (US\$) has appreciated by 14.7%. A number of the costs and expenses of the Company are incurred in US\$ and CDN\$ and the conversion of these costs to A\$ means that the comparison of December 2004 to 2003 does not always present a true comparison. The increase in expenses is a net result of:

- a) a decrease in interest expense from A\$45,000 for the three months ended December 31, 2003 to A\$2,000 for the three months ended December 31, 2004 as all long term debt was converted into equity in March 2004 and the Company raised funds through the issue of shares and warrants in March 2004 to fund the Company's operations. During the 2003 quarter, the interest rate of 8.60% was charged on outstanding amounts by Chevas. Chevas is a company associated with Mr. J.I. Gutnick, our President, which provided funding for the Company's operations during the prior year. AXIS Consultants provides management and geological services to the Company pursuant to a Service Deed dated November 25, 1988. AXIS Consultants charged interest at a rate of 10.60% for fiscal 2004 compared to 9.60% and 10.10% for fiscal 2003.
- b) an increase in legal, accounting and professional expense from A\$17,000 for the three months ended December 31, 2003 to A\$47,000 for the three months ended December 31, 2004 as a result of an increase in legal fees in relation to discussions with external financiers and the preparation of a listing of the Company's securities on the Toronto Venture Exchange.

- c) an increase in administrative costs including salaries from A\$76,000 in the three months ended December 31, 2003 to A\$196,000 in the three months ended December 31, 2004 as a result of the increase in the direct costs reimbursed to AXIS Consultants from A\$20,000 for the three months ended December 31, 2003 to A\$70,000 for the three months ended December 31, 2004, the costs of our Chief Operating Officer who undertakes business development, capital raising and investor relations work for the Company and associated business expenses of A\$41,000 (2003: \$25,000 as he was employed as a consultant from November 2003); the costs of preparation, lodgement with the SEC and printing of documentation forwarded to shareholders for the 2004 annual general meeting and a quarterly allocation of the insurance costs for Canada to cover the exploration programme of A\$14,000. There was no comparable cost in the prior comparable quarter for the annual general meeting and insurance.
- d) an increase in the exploration expenditure expense from \$17,000 for the three months ended December 31, 2003 to \$132,000 for the three months ended December 31, 2004. In March 2004, we appointed a Vice President Exploration in Canada and commenced the exploration program on the Committee Bay and Slave Properties. These properties are in Nunavut in an isolated area and exploration can only be undertaken between June and September each year due to ground conditions. Exploration is costly as we were required to hire and construct a temporary camp which also had to be transported by charter flight. All supplies and temporary employees also needed to be transported to the temporary camp by charter flights and/or helicopter. The properties are located approximately 100 kilometers from the camp and employees are transported by helicopter daily from camp to the exploration site. For the three months ended December 2003, exploration in Canada related to monitoring the staking of claims in the Committee Bay Greenstone Belt at a cost of A\$17,000. For the three months ended December 2004, exploration in Canada amounted to the receipt of assay results and assessment of the field programme.

As a result of the foregoing, the loss from operations increased from A\$155,000 for the three months ended December 31, 2003 to A\$377,000 for the three months ended December 31, 2004.

The net loss was A\$155,000 for the three months ended December 31, 2003 compared to a net loss of A\$377,000 for the three months ended December 31, 2004.

Six Months Ended December 31, 2004 vs. Six Months Ended December 31, 2003.

Costs and expenses increased from A\$277,000 in the six months December 31, 2003 to A\$1,695,000 in the six months ended December 31, 2004. The Company's financial statements are prepared in Australian dollars (A\$). Since December 31, 2003 the A\$ compared to the United States dollar (US\$) has appreciated by 14.7%. A number of the costs and expenses of the Company are incurred in US\$ and CDN\$ and the conversion of these costs to A\$ means that the comparison of December 2004 to December 2003 does not always present a true comparison. The increase in expenses is a net result of:

- a) an decrease in interest expense from A\$85,000 for the six months ended December 31, 2003 to A\$5,000 for the six months ended December 31, 2004 as all long term debt was converted into equity in March 2004 and the Company raised funds through the issue of shares and warrants in March 2004 to fund the Company's operations. During the 2003 period, the interest rate of 8.60% was charged on outstanding amounts by Chevas. Chevas is a company associated with Mr. J.I. Gutnick, our President, which provided funding for the Company's operations during the prior year. AXIS provides management and geological services to the Company pursuant to a Service Deed dated November 25, 1988. AXIS charged interest at a rate of 10.60% for fiscal 2004 compared to 9.60% and 10.10% for fiscal 2003
- b) an increase in legal, accounting and professional expense from A\$27,000 for the six months ended December 31, 2003 to A\$86,000 for the six months ended December 31, 2004 as a result

of an increase in legal fees in relation to discussions with external financiers and the preparation of a listing of the Company's securities on the Toronto Venture Exchange .

- c) an increase in administrative costs including salaries from A\$139,000 in the six months ended December 31, 2003 to A\$416,000 in the six months ended December 31, 2004 as a result of the increase in the direct costs reimbursed to AXIS Consultants from A\$37,000 for the six months ended December 31, 2003 to A\$190,000 for the six months ended December 31, 2004, the costs of our Chief Operating Officer who undertakes business development, capital raising and investor relations work for the Company and associated business expenses of A\$91,000 (2003: \$25,000 as he was employed as a consultant from November 2003); the costs of preparation, lodgement with the SEC and printing of documentation forwarded to shareholders for the 2004 annual general meeting and the six monthly allocation of the insurance costs for Canada to cover the exploration programme of A\$25,000. There was no comparable cost in the prior comparable period for the annual general meeting and insurance as the Company has only taken out insurance since it commenced its exploration activities and the prior annual shareholders approval occurred in June 2003.
- d) an increase in the exploration expenditure expense from A\$26,000 for the six months ended December 31, 2003 to A\$1,188,000 for the six months ended December 31, 2004. In March 2004, we appointed a Vice President Exploration in Canada and commenced the exploration program on the Committee Bay Properties and Slave Properties. These properties are in Nunavut in an isolated area and exploration can only be undertaken between June and September each year due to ground conditions. Exploration is costly as we were required to hire and construct a temporary camp which also had to be transported by charter flight. All supplies and temporary employees also needed to be transported to the temporary camp by charter flights and/or helicopter. The properties are located approximately 100 kilometers from the camp and employees are transported by helicopter daily from camp to the exploration site. For the six months ended December 2003, exploration in Canada related to monitoring the staking of claims in the Committee Bay Greenstone Belt at a cost of A\$17,000. In the six months ended December 2004, we completed field programs at both properties at a cost during the six month period of A\$1,188,000.

As a result of the foregoing, the loss from operations increased from A\$277,000 for the six months ended December 31, 2003 to A\$1,695,000 for the six months ended December 31, 2004.

The net loss was A\$277,000 for the six months ended December 31, 2003 compared to a net loss of A\$1,695,000 for the six months ended December 31, 2004.

Liquidity and Capital Resources

For the six months ended December 31, 2004, net cash used in operating activities was A\$1,577,000 primarily consisting of the net loss for the six months ended December 31, 2004 of A\$1,693,000; increases in accounts payable and accrued expenses of A\$16,000; a reduction of prepayments and deposits of A\$130,000; an increase in receivables of A\$49,000. Net cash used in investing activities consisted of a A\$6,000 purchase of plant and equipment. Net cash from financing activities was A\$466,000 being an increase in borrowing from affiliates to fund activities.

As of December 31, 2004 the Company had short-term obligations of A\$1,088,000 comprising accounts payable, accrued expenses and a short term loan from an affiliate.

We have A\$1,000 in cash at December 31, 2004. We are investigating the possibility of raising cash flow through money in Canada for exploration purposes.

We have been preparing a listing application for the dual listing of our shares of common stock on TSX-V. The listing application was lodged with TSX-V in June 2004 and we are currently in the process of responding to questions raised by TSX-V. We believe that a dual listing of our shares of common stock

will provide liquidity in our shares. There can be no assurance that the dual listing on TSX-V will eventuate or that such listing will create an increase in the volume of trading of our shares of common stock.

The Company anticipates that it will be able to defer repayment of certain of its short-term loan commitments, until it has sufficient liquidity to enable these loans to be repaid, of which there can be no assurance. In addition the Company has historically relied upon loans and advances from affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes, based on discussions with such affiliates, will continue to be available during fiscal 2005.

Other than the arrangements above, the Company has not confirmed any further arrangements for ongoing funding. As a result, the Company will be required to raise funds from additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

The Company will require substantial additional capital over the next year in order to satisfy existing liabilities and to provide funding to achieve its current business plan. Failure to obtain such capital could adversely impact the Company's operations and prospects.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-QSB's forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in December 1995. In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-QSB report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, and movements in the foreign exchange rate. Additional information which could affect the Company's financial results is included in the Company's Form 10-KSB on file with the Securities and Exchange Commission.

Item 3. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-14 as of the end of the period covered by this report. Based upon that evaluation, such officers concluded that our disclosure controls and procedures are effective to ensure that information is gathered, analyzed and disclosed on a timely basis.

Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
