PART I

Item 1 Business

General

Bay Resources, Ltd., a Delaware corporation (the "Company") is currently looking for opportunities in the mining and exploration industry in North America, Canada and Latin America.

Over the past few years the Company's major asset has been its 24% holding in the stock of SCNV Acquisition Corp ("SCNV"), a Delaware corporation engaged in the research and development of high efficiency, low pollution or pollution-free products and technologies in the energy conversion and conservation fields. Pursuant to a Stock Purchase Agreement dated as of June 5, 1998, ("the Stock Purchase Agreement") the Company acquired 499,701 shares in SCNV, representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmecs Corporation N.V., ("Solmecs"), a Netherlands Antilles company which was formerly a wholly owned subsidiary of the Company.

The Company has two wholly owned subsidiaries, Baynet International Pty Ltd and Baynex.com.Pty Ltd, both of which are incorporated in Australia, and are currently inactive.

In connection with the Company's future business activities, it is the policy of the Company's Board of Directors that it will not engage in any activities the scope and nature of which would subject the Company to registration and reporting requirements of the Investment Company Act of 1940.

Unless otherwise indicated, all amounts in this Report are presented in Australian Dollars ("A\$"). For the convenience of the reader, the Australian Dollar figures for the year ended June 30, 2001 have been translated into United States Dollars ("US\$") using the rate of exchange at June 30, 2001 of A\$1.00=US\$0.508.

The executive offices of the Company are located at 210 Kings Way, South Melbourne Victoria, 3205, Australia and the telephone number is +613 9234 1100 (facsimile +613 9234 1110).

The term "Company" as defined above and as used in this Report refers to Bay Resources, Ltd. and its predecessor corporation, Bayou Oil and Gas, Inc ("Bayou Oil") (described below), after giving effect to the reincorporation in the State of Delaware (also described below).

History of the Company

The Company's predecessor corporation, Bayou Oil, was incorporated under the laws of Minnesota in 1973. From 1973 through to 1981 Bayou Oil was engaged in the design and production of athletic equipment and it also owned rights to a line of sportswear. These business lines were ultimately discontinued and in March 1981 Bayou Oil entered into the oil and gas exploration business by acquiring certain rights to oil and gas leases. These rights were not profitable and, as a result, from 1981 through to May 1986 Bayou Oil did not engage in any meaningful business activities or operations.

On March 6, 1987 Bayou Oil was reincorporated in the State of Delaware, its name was changed to Bayou International, Ltd, and the par value of the stock was increased from US\$0.01 to US\$0.15 per share. In 1987 the Company acquired 54% of the issued and outstanding capital stock of Solmecs, and in January 1992 acquired the remaining 46% of the issued and outstanding shares. At that time, therefore, Solmecs became a wholly owned subsidiary of the Company.

On February 13, 1998, the Company incorporated a 100% owned subsidiary, Bayou Australia Pty Ltd, a corporation incorporated under the laws of Australia.

On June 29, 1999 the Company undertook a reverse stock split on a 1:20 basis and amended its Articles of Incorporation to amend the par value of its shares from US\$0.15 cents to US\$0.0001 cents per share. On September 27, 1999 the Company changed its name from Bayou International, Ltd to Baynet, Ltd.

In May 2000, the Company commenced work on the development of a B2B mining portal however, little work has been undertaken in the last nine months and the project is currently inactive.

On July 13, 2000 the Company changed the name of its subsidiary, Bayou Australia Pty Ltd to Baynex.com.Pty Ltd. On August 21, 2000 the Company incorporated a new wholly owned subsidiary, Baynet International Pty Ltd, a corporation incorporated under the laws of Australia. In October 2000, the Company changed its name to Bay Resources Ltd.

During fiscal 2001, the Company conducted a due diligence review of St. Andrew Goldfields Ltd ("St. Andrew") with a view to taking a substantial investment in St. Andrew. Following the conclusion of the review, the Company decided not to proceed with the investment.

SCNV Acquisition Corporation ("SCNV")

SCNV is a Delaware corporation established in May, 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primarily by scientists who have immigrated to Israel from and by scientists and institutions in, Russia and other countries that formerly comprised the Soviet Union. In furtherance of this goal, SCNV has acquired Solmecs.

The Agreement with SCNV

The Stock Purchase Agreement dated June 5, 1998 between the Company, SCNV and Solmecs required the Company to deliver to SCNV all of the issued share capital in its wholly owned subsidiary Solmecs, in return for 499,701 shares in SCNV.

The consideration shares in SCNV represent 24% of SCNV's issued share capital as at July 8, 1998. Simultaneously with the closing of the Solmecs Acquisition, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000. In connection with the Solmecs Acquisition, Baynet converted all inter-company indebtedness from Solmecs to Baynet (which aggregated approximately US\$5,000,000) to a capital contribution to Solmecs.

Baynet has been granted certain demand and "piggyback" registration rights with respect to the SCNV Shares. Notwithstanding the foregoing, Baynet has agreed not

to sell, grant options for sale of, assign or transfer any of the SCNV Shares, for a period of 24 months from the closing of the Agreement which expired in June 2000. Baynet has requested SCNV to take the necessary steps to register Baynet's shareholding in SCNV.

Solmeecs Corporation N.V. ("Solmeecs")

Solmeecs was established in 1980 to engage in the research, development and commercialisation of products and technologies in the energy conversion field. The technology, known as LMMHD Energy Conversion Technology (ECT) is in relation to more efficient and less capital-intensive methods of power generation. If commercially successful, the technology will enable more efficient conversion of generator fuel to electrical energy by bypassing the interim conversion to mechanical energy to drive a rotor. The process requires lower capital costs and its higher efficiency will create less environmental pollution than conventional electrical generation processes.

The specific form of LMMHD-ECT in which Solmeecs is engaged is referred to as OMACON (Optimised Magnetohydrodynamic Conversion). The patented technology for the OMACON generator was originally developed by Professor Herman Branover ("Branover"), an astrophysicist who is the head of Ben-Gurion University's centre for Magnetohydrodynamic (MHD) studies in Israel and a former Professor at the Academy of Science in Riga, Latvia.

Search for New Business Opportunities

As a result of the sale of SCNV, the Company's only significant asset is its investment in SCNV. The Company has no further operating business. The Board of Directors is exploring opportunities to effect an acquisition whether by merger, exchange or issuance of capital stock, acquisition of assets, or other similar business combination (a "Business Combination"), which the Board believes may have significant growth potential. As the Company competes for desirable acquisition candidates with a large number of entities with significantly greater financial resources and technical expertise than the Company, the Company cannot be assured that it will succeed in its efforts to conclude a Business Combination. If a Business Combination is effected, the success of the Company will depend to a great extent on the operations, financial condition, management and prospects of the entity, if any, with which the Company may merge or which it may acquire. As the Company has no arrangement, agreement or understanding with a particular business entity, the specific risks presented by such business cannot be described or assessed at this time. Such business may involve an unproven product, technology or marketing strategy, the ultimate success of which cannot be assured and such business may be in competition with larger, more established firms over which it will have no competitive advantage. The Company's new business opportunity may be highly illiquid and could result in a total loss to the Company if the opportunity is unsuccessful. Given the Company's limited resources, it is expected that the Company may not be in a position to diversify this risk by acquiring an interest in more than one business.

Depending on the size and nature of the entity, if any, which may be acquired, the Company may utilize cash, equity, debt or a combination thereof to increase the amount of capital available for a Business Combination or to finance the operation of the acquired business. Although the Company believes additional capital may be required, the necessity for and the amount and nature of any future borrowings or other financings by the Company will depend on numerous considerations including the Company's capital requirements, its perceived ability to service such debt and

prevailing conditions in the financial markets and the general economy. No assurance can be made that additional capital will be available on terms acceptable to the Company. If the Company issues additional equity to raise capital or to acquire a new business, the percentage of ownership of the current shareholders could be reduced and an "ownership change" could occur for tax purposes. An "ownership change" could adversely affect the Company's ability to use its net operating loss carryforwards.

Although the Company is subject to regulation under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, management believes the Company is not subject to regulation under the Investment Company Act of 1940, as amended (the "Investment Company Act") insofar as the Company is not engaged in the business of investing or trading in securities. In the event the Company engages in business combinations which result in the Company holding passive investment interests in a number of entities or in the event the Company is unable to consummate a Business Combination for a substantial period of time, the Company could be subject to regulation under the Investment Company Act. In such event, the Company would be required to register as an investment company, and could incur significant registration and compliance costs and would be subject to extensive regulation

Employees

The services of the Company's Chief Executive Officer and Chief Financial Officer as well as clerical employees are provided to the Company on a part-time basis pursuant to a Service Agreement dated November 25, 1988 (the "Service Agreement") by and between the Company and A.W.I. Administration Services Pty Limited ("AWI Admin"). AWI Admin also provides office facilities, equipment, administration and clerical services to the Company pursuant to the Service Agreement. The Service Agreement may be terminated by written notice from the parties thereto.

Further detail relating to additional terms of the Service Agreement is included in "*Item 2- Properties*", "*Item 13- Certain Relationships and Related Transactions*" and "*Item 11- Executive Compensation*".

Item 2 Properties

The Company occupies certain executive and office facilities in Melbourne, Victoria, Australia which are provided to it pursuant to the Service Agreement with AWI Admin. See "*Item 1- Business- Employees*" and "*Item 13- Certain Relationships and Related Transactions*".

The Company believes that its administrative space is adequate for its current needs.

Item 3 Legal Proceedings

There are no pending legal proceedings to which the Company is a party, or to which any of its property is the subject, which the Company considers material.

Item 4 Submission of Matters to a Vote of Security Holders

Not applicable.

Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations

Foreign Currency Translation

The majority of the Company's administrative operations are in Australia and, as a result, its accounts are maintained in Australian dollars. The income and expenses of its foreign operations are translated into Australian dollars at the average exchange rate prevailing during the period. Assets and liabilities of the foreign operations are translated into Australian dollars at the period-end exchange rate. The following table shows the average rates of exchange of the Australian dollar compared with the US dollar during the periods indicated.

Year ended June 30	
1997	A\$1.00 = US\$0.746
1998	A\$1.00 = US\$0.620
1999	A\$1.00 = US\$0.661
2000	A\$1.00 = US\$0.602
2001	A\$1.00 = US\$0.508

Results of Operations

Year ended June 30, 2001 versus Year ended June 30, 2000

Total costs and expenses have increased from A\$393,000 for the year ended June 30, 2000 to A\$407,000 (US\$207,000) for the year ended June 30, 2001. The increase was a net result of:

- i) A decrease in interest expense from A\$80,000 to A\$69,000(US\$35,000) as a result of the conversion of the debt owing to Chevas Pty Ltd, a company associated with Mr. J.I. Gutnick, President of Bay Resources Ltd, into equity in the Company in the prior fiscal year and the full effect of lower debt levels has been reflected in the interest cost in the current fiscal year.
- ii) A decrease in legal, accounting and professional costs from A\$69,000 to A\$43,000 (US\$22,000). In the prior fiscal year, substantial work was undertaken in regard to the Company's proposed new B2B internet activities for which there was no comparable work in the current fiscal year.
- iii) An increase in administrative costs from A\$244,000 to A\$295,000 (US\$150,000) as a result of the work undertaken on a proposed investment in St Andrew Goldfields Ltd whereas in the prior year, the costs related to the proposed new business activity of the Company in the area of B2B internet.

Accordingly, the loss from continued operations increased from A\$393,000 for the year ended June 30, 2000 to A\$407,000 (US\$207,000) for the year ended June 30, 2001.

During the year ended June 30, 2001 the Company recognised the permanent decline of its investment in SCNV and recorded a loss of A\$4,516,000.

The Company was not required to provide for income tax during the years ended June 30, 2001 or 2000.

The net loss amounted to A\$4,923,000 (US\$2,499,000) for the year ended June 30, 2001 compared to a net loss of A\$393,000 for the year ended June 30, 2000. The net loss per common equivalent share was A\$.78 (US\$.40) compared with a net loss with a common equivalent share of A\$0.07 in the prior year.

Year ended June 30, 2000 versus Year ended June 30, 1999

Total costs and expenses have decreased from A\$488,000 for the year ended June 30, 1999 to A\$393,000 for the year ended June 30, 2000. The decrease was a net result of:

- i) A decrease in interest expense from A\$321,000 to A\$80,000 as a result of the conversion of the debt owing to Chevas Pty Ltd, a company associated with Mr. J.I. Gutnick, President of Bay Resources Ltd, into equity in the Company.
- ii) An increase in legal, accounting and professional costs from A\$34,000 to A\$69,000 as a result of work undertaken in regard to the Company's proposed new B2B internet activities.
- iii) An increase in administrative costs from A\$133,000 to A\$244,000 as a result of the work undertaken in regard to the proposed new business activity of the Company in the area of B2B internet.

Accordingly, the loss from operations decreased from A\$488,000 for the year ended June 30, 1998 to A\$393,000 for the year ended June 30, 2000.

The Company was not required to provide for income tax during the years ended June 30, 2000 or 1999.

The net loss amounted to A\$393,000 for the year ended June 30, 2000 compared to a net loss of A\$488,000 for the year ended June 30, 1999. The net loss per common equivalent share was A\$0.07 compared with a net loss with a common equivalent share of A\$0.21 in the prior year.

Liquidity and Capital Resources

As of June 30, 2001 the Company had the short-term obligations of A\$264,000 (US\$134,000) consisting of accounts payable and accrued expenses.

The Company also had long-term obligations of A\$641,000 (US\$325,000) at June 30, 2001 which were amounts owed to Chevas Pty Ltd of which Mr. J.I. Gutnick, President of the Company, is a Director.

The Company anticipates that it will be able to defer repayment of certain of its short-term loan commitments until it has sufficient liquidities to enable these loans to be repaid or other arrangements can be put in place for repayment of these debts. Other than the arrangements noted above, the Company has not confirmed any other arrangements for ongoing funding. As a result, the Company may be required to raise funds by additional debt or equity offerings and or increased revenues for operations in order to meet its cash flow requirements during the forthcoming year of which there can be no assurance.

Cautionary “Safe Harbor” Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-K are forward-looking statements within the meaning of the Private Securities Litigation Act of 1995 (“the Act”), which became law in December, 1995. In order to obtain the benefits of the “safe harbor” provisions of the Act for any such forward-looking statements, the Company wishes to caution investors and prospective investors about significant factors which, among others, have in some cases affected the Company’s actual results and are in the future likely to affect the Company’s actual results and cause them to differ materially from those expressed in any such forward-looking statements. This Form 10-K contains forward-looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control, including the strength of domestic and foreign economies, slower than anticipated completion of research and development projects, and movements in foreign exchange rates.

Impact of Australian Tax Law

Australian resident corporations are subject to Australian income tax on their non-exempt worldwide assessable income (which includes capital gains), less allowable deductions, at the rate of 36%. Foreign tax credits are allowed where tax has been paid on foreign source income, provided the tax credit does not exceed 36% of the foreign source income.

Under the U.S./Australia tax treaty, a U.S. resident corporation such as the Company is subject to Australian income tax on net profits attributable to the carrying on of a business in Australia through a “permanent establishment” in Australia. A “permanent establishment” is a fixed place of business through which the business of an enterprise is carried on. The treaty limits the Australian tax on interest and royalties paid by an Australian business to a U.S. resident to 10% of the gross interest or royalty income unless it relates to a permanent establishment. Although the Company considers that it does not have a permanent establishment in Australia, it may be deemed to have such an establishment due to the location of its administrative offices in Melbourne. In addition the Company may receive interest or dividends from time to time.

Impact of Australian Governmental, Economic, Monetary or Fiscal Policies

Although Australian taxpayers are subject to substantial regulation, the Company believes that its operations are not materially impacted by such regulations nor is it subject to any broader regulations or governmental policies than most Australian taxpayers.

David Prentice

Mr. Prentice has over 13 years experience in the mining industry in both land management and business development. He has extensive experience in managing the commercial aspects of publicly listed exploration and mining companies, including business and project analysis support (playing an active role in the growth of companies by assisting with the identification and analysis of potential acquisition opportunities), negotiating and managing land access and Joint Venture agreements and managing legislative compliance (including Native Title, Environmental and Mining legislation across Australia).

Dov Farkas

Mr. Farkas has been responsible since January 2000 for the investor relations activities of six public listed companies in the resources and biotechnology fields, namely Astro Mining N.L, Autogen Limited, Bay Resources Ltd, Gutnick Resources N.L, Johnson's Well Mining N.L and Quantum Resources Limited. Prior to that time, Mr Farkas was employed by the Swiss commodities trading group Glencore International AG, in the global coal trading division based in Sydney. During this four-year period at Glencore, the coal trading division grew to become the world's largest coal trading company.

Item 11. Executive Compensation.

No officer individually and no group of officers and Directors received any compensation for their services on behalf of, or rendered to, the Company for the fiscal year ended June 30, 2001, other than as noted below.

In accordance with the Service Agreement, the Company paid AWI Admin A\$267,000 for the fiscal year ended June 30, 2001, for services rendered and facilities provided

by AWI Admin to the Company, including the services of the Company's Chief Executive Officer and Chief Financial Officer.

For additional information about the Service Agreement and the Consulting Agreement see "Item 1- Business- Employees" and "Item 13- Certain Relationships and Related Transactions".

The Board of Directors has established a policy that the Company will not guarantee loans to, or accept notes from, officers, Directors or employees of the Company or any members of their families unless such loans or notes are approved by a majority of the disinterested non-employee Directors of the Company, who shall determine that such loans may reasonably be expected to benefit the Company.

Compensation Pursuant to Plans.

The Company does not directly employ any employees nor does it have any pension or profit sharing plans and no contributions were made to any employee benefit or health plan during the year ended June 30, 2001.

Compensation to Directors

Item 13. Certain Relationships and Related Transactions

In accordance with the Service Agreement AWI Admin provides the Company with the services of the Company's Chief Executive Officer, Chief Financial Officer and clerical employees, as well as office facilities, equipment, administrative and clerical services. As compensation therefore, the Company pays AWI Admin for the actual

costs of such facilities plus a maximum service fee of 15%. The Company paid AWI Admin A\$267,000 in respect of the Service Agreement for the fiscal year ended June 30, 2001, A\$205,029 for the fiscal year ended June 30,2000 and A\$74,852 for the fiscal year ended June 30,1999. The Service Agreement may be terminated by written notice by either party.

Chevas Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, has provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. At June 30, 1999 the Company had a liability to Chevas of A\$4,006,027. During the 2000 fiscal year, Chevas paid expenses totalling A\$76,548 on behalf of the Company, loaned a further A\$212,000 to the Company and charged A\$56,410 in interest to the Company on the loan account. During the 2000 fiscal year, the Company issued 4,000,000 shares to Edensor Nominees Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, in lieu of repayment of the liability owing to Chevas which amounted to A\$4,076,000 at the time of the issue. During the 2001 fiscal year, chevas loaned a further A\$378,630 and charged A\$48,796 in interest to the Company on the loan account. At June 30,2001, the Company owed Chevas A\$641,572.

Chevas charges interest to the Company on outstanding balances of the loan account at the ANZ Banking Group Limited reference rate for overdrafts over A\$100,000 plus 1%. In accordance with this formula, the actual interest rate charged during the 2001 fiscal year varied between 8.25% and 9.95%.

On January 20, 2000, the Company issued 8,000,000 options over fully paid shares in the capital of the Company at an issue price of US\$0.01 per option and an exercise price of US\$1.00 per option to Edensor. The options have a term of 5 years with a non-exercise period of 2 years subject to a further board approval for Edensor Nominees Pty Ltd, either directly or indirectly, to exercise options in the case of a further requirement of the Company to raise working capital. On March 22, 2001, the Directors agreed to extend the term of the options from 5 years to 10 years.

Transactions with Management.

The Company has a policy that it will not enter into any transaction with an officer, Director or affiliate of the Company or any member of their families unless the transaction is approved by a majority of the disinterested Directors of the Company and the disinterested majority determines that the terms of the transaction are no less favourable to the Company than the terms available from non-affiliated third parties or are otherwise deemed to be fair to the Company at the time authorised.

David T.**Thomson P.C.**Certified Public Accountant**INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors and Stockholders of Bay Resources, Ltd

I have audited the accompanying consolidated balance sheets of Bay Resources, Ltd (formerly Baynet Ltd and Bayou International, Ltd) (a Delaware corporation) and Subsidiaries at June 30, 2001 and 2000 and the related consolidated statements of operations, stockholders' equity and cash flows for each of the years in the three year period ended June 30, 2001. These consolidated financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these consolidated financial statements based on my audits.

I conducted my audits in accordance with generally accepted auditing standards in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Bay Resources, Ltd. and Subsidiaries at June 30, 2001 and 2000 and the results of its operations and its cash flows for each of three years in the period ended June 30, 2001, in conformity with generally accepted accounting principles in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company and its subsidiaries will continue as going concerns. As discussed in Note (6) to the consolidated financial statements, the Company and its subsidiaries have suffered recurring losses from operations, have no net working capital and have stockholders' deficits. These factors raise substantial doubt as to the consolidated entity's ability to continue as a going concern. Management's plans in regard to these matters are discussed in Note (6). The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

BAY RESOURCES, LTD. AND SUBSIDIARIES
(formerly Baynet Ltd and Bayou International, Ltd)
Notes to Consolidated Financial Statements
June 30, 2001 and 2000

(1) ORGANIZATION

Bay Resources, Ltd. ("Bay") is incorporated in the State of Delaware. The principal shareholder of Bay is Edensor Nominees Proprietary Limited ("Edensor"), an Australian corporation. Edensor owned 78.8% of Bay as of June 30, 2001. Bay acquired a controlling interest on September 3, 1987 in former subsidiary, Solmecs Corporation N.V. ("Solmecs") and 100% ownership on January 2, 1992. Bay sold its interest in Solmecs effective June 5, 1998. During fiscal 1998, Bay incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com has not traded since incorporation. On August 21, 2000 the Company incorporated a new wholly owned subsidiary, Bay International Pty Ltd, a corporation incorporated under the laws of Australia.

(2) ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed in connection with the preparation of the consolidated financial statements.

(a) Consolidation

The consolidated financial statements include the accounts of Bay and the 100% interest it holds in Baynex.com Pty Ltd and Baynet International Pty Ltd. All significant intercompany transactions and balances have been eliminated in consolidation.

(b) Foreign Currency Translation

The majority of Bay's administrative operations are in Australia and as a result its accounts are maintained in Australian dollars. The income and expenses of its foreign operations are translated into Australian dollars at the average exchange rate prevailing during the period. Assets and liabilities of the foreign operations are translated into Australian dollars at the period-end exchange rate.

(2) ACCOUNTING POLICIES (Continued)

(c) Change in Name

On September 27, 1999 the Company changed its name from Bayou International, Ltd to Baynet, Ltd and in October 2000 changed its name to Bay Resources, Ltd.

(d) Financial Instruments

The following methods and assumptions were used by Bay to estimate the fair values of financial instruments as disclosed herein:

- (i) Cash and Equivalents – The carrying amount approximates fair value because of the short period to maturity of the instruments.
- (ii) Investment Securities – For both trading securities and available-for-sale securities, the carrying amounts approximate fair value.
- (iii) Long-term Debt – The fair value of long-term debt is estimated based on interest rates for the same or similar debt offered to Bay having the same or similar remaining maturities and collateral requirements.

(e) Investment Securities

Management determines the appropriate classification of investment securities at the time they are acquired and evaluates the appropriateness of such classification at each balance sheet date. The classification of these securities and the related accounting policies are as follows:

- (i) Trading securities are held for resale in anticipation of short-term fluctuations in market prices. Trading securities consisting primarily of actively traded marketable equity securities are stated at fair value. Realised and unrealised gains and losses are included in income.
- (ii) Available-for-sale securities consist of marketable equity securities not classified as trading securities. Available-for-sale are stated at fair value and unrealised holding gains and losses net of the related deferred tax effect, are reported as a separate component of stockholders' equity.
- (iii) Dividends on marketable equity securities are recognised in income when declared. Realised gains and losses are included in income. Realised gains and losses are determined on the actual cost of the securities sold.

BAY RESOURCES, LTD. AND SUBSIDIARIES
(formerly Baynet Ltd Bayou International, Ltd)
Notes to Consolidated Financial Statements
June 30, 2001 and 2000

(2) ACCOUNTING POLICIES (Continued)

- (f) Cash and Cash Equivalents
Bay considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. For the periods presented there were no cash equivalents.
- (g) Property and Equipment
Property and equipment is stated at the lower of historical cost or market or in the case of acquisitions from related parties at the lower of historical cost to the related party or market. Depreciation is computed over a period covering the estimated useful life of the applicable property and equipment.
- (h) Income Tax
Income taxes are provided on financial statement income. For the periods presented there was no taxable income. There are no deferred income taxes resulting from timing differences in reporting certain income and expense items for income tax and financial accounting purposes. Bay at this time is not aware of any net operating losses which are expected to be realised.
- (i) Earnings (loss) per share
Primary (loss) per share is computed based on the weighted average number of common shares and common share equivalents outstanding during the period.
- (j) Convenience Translation to US\$
The consolidated financial statements at June 30, 2001 have been translated into United States dollars using the rate of exchange of the United States dollar at June 30, 2001 (AUS \$1.00=US \$0.5076). The translation was made solely for the convenience of readers in the United States.
- (k) Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(3) INVESTMENT SECURITIES		
The following is a summary of Investment Securities, 2000 and 2001:		
Investment, Cost method		
Available for Sale Securities	\$4,516	\$4,516
Marketable Equity Securities, at cost	-	-
Gross Realised Loss or impairment	-	(4,516)
Gross Unrealised Losses	(4,467)	-
Marketable Equity Securities, at fair value	\$49	\$-

The investment using this cost method is carried at cost. Dividends received from the investment carried at cost are included in other income. Dividends received in excess of the Company's proportionate share of accumulated earnings ("return of capital dividend") are applied as a reduction of the cost of the investment. No securities were sold during 2001 and 2000 and all securities were treated as available for sale for 2001 and 2000. The net unrealised loss of A\$612 and A\$3,855 shown in the Statement of Stockholders' Equity for 2000 and 1999 consist entirely of the change in holding loss for those periods. At June 30, 2001 the Company determined that the decline in value of its investment was permanent and has recorded a realised loss in the amount of \$4,516.

(4) SHORT TERM AND LONG-TERM DEBT		

The following is a summary of Bay's borrowing arrangements as of June 30, 2000 and 2001.

Long Term

Loan from corporations affiliated with the President of Bay. Interest accrues at the ANZ Banking Group Limited rate +1% for overdrafts over \$100,000. Repayment of loan not required before June 30, 2002. ⁽¹⁾

	\$214	\$641
--	-------	-------

⁽¹⁾ \$7,000 was repaid on January 20, 2000 partly through the issuance of 8,000,000 options to purchase previously unissued stock. Through the date of these financials Bay has continued to borrow from this source. The options to purchase shares expire January 20, 2010 and the exercise price is US\$1.00 per share. The options were issued to a company affiliated with the President of Bay Resources Ltd.

(5) AFFILIATE TRANSACTIONS

Bay advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation. At June 30, 2001 Bay had no outstanding advances to or from unconsolidated affiliated companies. \$185,000 and \$275,000 of accounts payable for the years shown is due to an affiliated management company.

(6) GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay as a going concern. However, Bay has sustained recurring losses. In addition, Bay has a net working capital deficiency which raises substantial doubts as to its ability to continue as a going concern.

Bay anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place.

In addition Bay has historically relied on loans and advances from corporations affiliated with the President of Bay. Based on discussions with these affiliate companies, Bay believes this source of funding will continue to be available.

Other than the arrangements noted above, Bay has not confirmed any other arrangement for ongoing funding. As a result Bay may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

(7) SALE OF SOLMECS

Pursuant to a stock purchase agreement dated as of June 5, 1998, the Company acquired 499,701 shares in SCNV Acquisition Corp ("SCNV"), representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmeecs Corporation N.V, a Netherlands Antilles company which prior to the exchange was formerly a wholly owned subsidiary of the Company. The 499,701 shares has been valued at US\$2,800,000 or A\$4,516,000 and will be accounted for using the cost method because the Company does not exercise significant influences over SCNV's operating and financial activities (see note 4). The sale resulted in a gain of \$5,899,000.

(7) SALE OF SOLMECS (Continued)

SCNV is a Delaware corporation established May 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primarily by scientists who have been recently immigrated to Israel from and by scientists and institutions in Russia and other countries that formerly comprised the Soviet Union. Simultaneously with the SCNV stock acquisition by the Company, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000

The Company has been granted certain demand and "piggyback" registration rights with respect to the SCNV shares. Notwithstanding the foregoing, the Company has agreed not to sell, grant options for sale of assign or transfer any of the SCNV shares, for a period of 24 months from the closing of the agreement which expired in June 2000. Bay Resources has requested SCNV to take the necessary steps to register Bay Resources' shareholding in SCNV. The Company does not currently have any plans to distribute the shares.

(8) INCOME TAXES

Bay files its income tax returns on an accrual basis. Bay has carry forward losses of approximately US\$17.5 million as of June 30, 2001 which expire in the years 1999 through 2012, Baynet will need to file tax returns for those years having losses on which returns have not been filed to establish the tax benefits of the NOL carryforwards. Due to the uncertainty as to realization of these losses, a valuation allowance of US\$6.0 million has been recorded to offset the tax benefit of the carry forward losses. During the year ended June 30, 2001 Bay provided an additional valuation allowance of US\$1.0 million.
