Notes to Consolidated Financial Statements
September 30, 2011

(1) Organisation

Golden River Resources Corporation ("Golden River Resources" or the "Company") is incorporated in the State of Delaware. The principal shareholders of Golden River Resources are companies associated with the President of Golden River Resources and his spouse. These companies owned 96.6% of Golden River Resources as of September 30, 2011.

In May 2002, the Company incorporated a new wholly owned subsidiary, Golden Bull Resources Corporation (formerly 4075251 Canada Inc), a corporation incorporated under the laws of Canada. Golden Bull Resources Corporation is undertaking exploration activities for gold in Canada.

Golden River Resources, as part of its business strategy, is increasing its gold and base metal exploration activity in Canada and is continually sourcing new ground in Canada which is one of the most prospective areas for new gold discoveries. On March 17, 2009, the Company announced that it had reached agreement with Acadian Mining Corporation (TSX: ADA) ("Acadian") to subscribe in a private placement transaction giving Golden River Resources a 68.67% holding of Acadian. As of September 30, 2011, Golden River Resources held 38,994,020 common shares in Acadian for a 71.96% interest. On November 17, 2010, Acadian consolidated its outstanding common shares on the basis of one post-consolidated share for every ten pre-consolidated shares as approved by Acadian shareholders.

The financial statements presented herein have been prepared on a consolidated basis to include the accounts of Golden River Resources, Acadian and its other subsidiaries (collectively "the Company"). All intercompany balances and transactions have been eliminated in consolidation.

The Company's consolidated financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, Golden River Resources is an exploration stage company which has not yet commenced revenue producing operations and has sustained recurring losses since inception, all of which raises substantial doubt as to its ability to continue as a going concern.

In addition, Golden River Resources has historically relied on loans and advances from corporations affiliated with the President of Golden River Resources and fund raising through the sale of equity instruments. Based on discussions with these affiliate companies, the Company believes this source of funding will continue to be available.

Other than the arrangements noted above, the Company has not confirmed any other arrangement for ongoing funding. The Company's ability to continue operations through fiscal 2012 is dependent upon future funding from capital raisings, or its ability to commence revenue producing operations and positive cash flows.

(2) Recent Accounting Pronouncements

In September 2011, FASB issued Accounting Standard Update ("ASU") No. 2011-08, Testing Goodwill for Impairment. This ASU is intended to simplify how entities test goodwill for impairment. ASU 2011-08 permits an entity to first assess qualitative factors to determine whether it is "more likely than not" that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350, Intangibles-Goodwill and Other. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. This new guidance is effective for fiscal years and interim periods beginning after December 15, 2011. The Company does not expect this guidance to have a significant impact on our consolidated financial position, results of operations or cash flows.

Acadian

At the annual and special meeting of shareholders of Acadian held on June 14, 2007, the shareholders adopted a 10% "rolling" incentive stock option plan (the "Plan"). The plan was approved at the Annual General Meeting of Acadian held June 24, 2010. Changes in unrealized foreign currency translation adjustments during the three months ended September 30, 2011 and 2010 amounted to CDN\$nil and CDN\$nil respectively. Accordingly, comprehensive (loss) for the three months ended September 30, 2011 and 2010 amounted to CDN\$(1,144,000) and CDN\$(1,551,000) respectively.

(13) Income Taxes

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Canadian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Canadian dollar as compared to the US dollar and Australian dollar during the periods indicated:

3 months ended September 30, 2010	CDN\$1.00 = US\$0.97190
3 months ended September 30, 2011	CDN\$1.00 = US\$.96818
3 months ended September 30, 2010	CDN\$1.00 = A\$1.00210
3 months ended September 30, 2011	CDN\$1.00 = A\$.98860

Prior to July 1, 2009, the Company's functional and reporting currency was the Australian dollar and its subsidiary, Golden Bull Resources Corporation's functional currency was the Canadian dollar. However, as a result of the purchase of the controlling interest in Acadian Mining Corporation in Canada in July 2009, the Company's fiscal 2010 revenue and expenses are primarily denominated in Canadian dollars (CDN\$). ASC Topic 830 Foreign Currency Matters states that the functional currency of an entity is the currency of the primary economic environment in which the entity operates. Accordingly the Company determined that from July 1, 2009 the functional and reporting currency of the Company is the Canadian dollar. Assets, liabilities and portions of equity were translated at the rate of exchange at July 1, 2009 and portions of equity were translated at historical exchange rates. Revenue and expenses were translated at actual rates. Translation gains and losses were included as part of accumulated other comprehensive loss.

The Company's financial statements are prepared in Canadian dollars (CDN\$). A number of the costs and expenses of the Company are incurred in US and Australian dollars and the conversion of these costs to CDN\$ means that the comparison of the three months ended September 30, 2011 to the three months ended September 30, 2010 does not always present a true comparison.

GENERAL

Golden River Resources as part of its business strategy increased its gold exploration activity in Canada. As part of this strategy in fiscal 2009, the Company acquired an interest in Acadian Mining Corporation ("Acadian"), a Canadian gold, lead and zinc exploration corporation. Effective May 31, 2011, Acadian sold its lead and zinc assets, including Scotia Mine for CDN\$10 million. During the three months ended September 30, 2011, the Company purchased an additional 259,500 shares in Acadian at a cost of CDN\$79,985. As at September 30, 2011, Golden River Resources held a 71.96% interest in Acadian.

RESULTS OF OPERATIONS

Three Months Ended September 30, 2011 vs. Three Months Ended September 30, 2010.

As a result of the sale by Acadian of all of the shares in ScoZinc Limited on May 31, 2011, there is a lack of comparability between the Company's results for the three months ended September 30, 2011 compared to the three months ended September 30, 2010.

Costs and expenses decreased from CDN\$1,803,000 in the three months ended September 30, 2010 to CDN\$1,566,000 in the three months ended September 30, 2011.

The decrease in costs and expenses is a net result of:

- a) an increase in stock based compensation from CDN\$nil for the three months ended September 30, 2010 to CDN\$21,000 for the three months ended September 30, 2011 as a result of options issued to Directors by Acadian which are being progressively expensed over the vesting period. See Note 4 concerning the Company's outstanding stock options.
- b) an increase in the exploration expenditure expense from CDN\$829,000 for the three months ended September 30, 2010 to CDN\$1,020,000 for the three months ended September 30, 2011. For Golden River Resources, the costs related to consultants providing exploration reviews and advice on the Slave and Committee Bay properties as no field work was undertaken during the three months ended September 30, 2010 or 2011 by the Company. Included within exploration expenditure expense for the three months ended September 30, 2011 is CDN\$962,000 for work undertaken by Acadian for field exploration activities on its gold properties. The increase in exploration expenditure during the three months ended September 30, 2011 was

primarily due to completion by Acadian of a drill program on the Fifteen Mile project. Included within exploration expenditure expense for the three months ended September 30, 2010 is CDN\$460,000 for certain maintenance work undertaken by Acadian on its Scotia mine which was on care and maintenance until its sale on May 31, 2011.

- c) a decrease in depreciation and amortization expense from CDN\$125,000 for the three months ended September 30, 2010 to CDN\$26,000 for the three months ended September 30, 2011. The depreciation and amortization expense relates to the activities of Acadian. For the three months ending September 30, 2010 depreciation and amortization for Acadian included amortization of the ScoZinc mine and mill and equipment.
- d) a decrease in interest expense from CDN\$42,000 for the three months ended September 30, 2010 to CDN\$3,000 for the three months ended September 30, 2011. The interest expense for the three months ended September 30, 2010 relates to the activities of Acadian which was paying interest on capital debt and the final cost of having the debtor in possession financing in place. During May 2011 the debt was settled and satisfied.
- e) a decrease in legal, accounting and professional expense from CDN\$236,000 for the three months ended September 30, 2010 to CDN\$111,000 for the three months ended September 30, 2011. Included within legal, accounting and professional expense for the three months ended September 30, 2011 is CDN\$24,000 for costs associated with the Company's SEC compliance obligations and CDN\$87,000 for Acadian which relates to general legal work, audit and stock transfer costs. The decrease is primarily the result of a reduction in secretarial services, financial reporting reviews and taxation services.
- f) a decrease in administrative costs including salaries from CDN\$571,000 in the three months ended September 30, 2010 to CDN\$385,000 in the three months ended September 30, 2011. Included within administrative expense for the three months ended September 30, 2011 is CDN\$321,000 for Acadian compared to CDN\$535,000 for the three months ended September 30, 2010 which includes head office salaries, rent, office related costs and travel. The decrease relates to the decrease in head office salaries, and a decrease in office and statutory filing costs.

As a result of the foregoing, the loss from operations increased from CDN\$1,803,000 for the three months ended September 30, 2010 to CDN\$1,566,000 for the three months ended September 30, 2011.

The Company recorded a foreign currency exchange loss of CDN\$16,000 for the three months ended September 30, 2011 and CDN\$126,000 for the three months ended September 30, 2010, primarily due to revaluation of advances from affiliates which are denominated in Australian dollars.

The loss before income taxes and equity in (losses) of unconsolidated entities for the three months ended September 30, 2011 was CDN\$1,582,000 compared to CDN\$1,894,000 for the three months ended September 30, 2010.

The Company has recorded a benefit for deferred tax of CDN\$(40,000) for the three months ended September 30, 2011 compared to a provision for tax of CDN\$105,000 for the three months ended September 30, 2010, as a result of acquisition of further shares in Acadian and an update of net operating loss carry-forward in Canada..

The loss before equity in (losses) of unconsolidated entities for the three months ended September 30, 2011 was CDN\$1,542,000 compared to CDN\$1,999,000 for the three months ended September 30, 2010.

The net loss was CDN\$1,542,000 for the three months ended September 30, 2011 compared to CDN\$1,999,000 for the three months ended September 30, 2010.

The share of the loss attributable to the non-controlling interests of Acadian amounted to CDN\$398,000 for the three months ended September 30, 2011 compared to CDN\$448,000 for the three months ended September 30, 2010. At September 30, 2010, the Company's interest in Acadian was 71.48% and at September 30, 2011, its interest was 71.96%. During the three months ended September 30, 2011, the Company purchased a further 259,500 shares in Acadian through on-market purchase in the Toronto Stock Exchange at a cost of CDN\$79,985, which resulted in a decrease in non-controlling interest of CDN\$248,000

The net loss attributable to Golden River Resources stockholders amounted to CDN\$1,144,000 for the three months ended September 30, 2011 compared to CDN\$1,551,000 for the three months ended September 30, 2010.

Liquidity and Capital Resources

For the three months ended September 30, 2011, net cash used by operating activities was CDN\$1,433,000 primarily consisting of the net loss of CDN\$1,542,000; and a decrease in accounts payable and accrued expenses of CDN\$274,000; net cash provided by investing activities of CDN\$91,000 being primarily proceeds from sale of land

CDN\$221,000 and the net cost of the additional investment in Acadian; and net cash used in financing activities of CDN\$638,000 consisting of net repayment to affiliates.

As of September 30, 2011, the Company had short-term obligations of CDN\$1,101,000 comprising accounts payable and accrued expenses.

We have CDN\$1,810,000 in cash at September 30, 2011.

Since fiscal 2004, we have undertaken field exploration programs on our Committee Bay and Slave properties. In relation to the Committee Bay properties, this was more than the minimum required expenditure and as a result, we have not had a legal obligation to undertake further exploration on these properties. However, our properties are prospective for gold and other minerals and commencing in fiscal 2013, we will be required to bring the Committee Bay properties to lease status by completing a survey and making application for lease status. In respect to the Slave properties, the Company will be required to incur expenditure or make payments in lieu of expenditure of CDN\$577,000 prior to the end of 2011 and CDN\$611,252 prior to the end of 2012. Further, Acadian has an obligation to spend amounts on its mineral properties in order to maintain the leases and is required to spend CDN\$363,100 and issue 29,118 Acadian shares on gold exploration properties during fiscal 2012. Our budget for general and administration costs for fiscal 2012 is CDN\$500,000 and Acadian's budget for the general and administration costs for fiscal 2012 is CDN\$1,400,000. We are currently investigating capital raising opportunities which may be in the form of either equity or debt, to provide funding for working capital purposes and future exploration programs. There can be no assurance that such capital raising will be successful, or that even if an offer of financing was received by the Company, it is on terms acceptable to the Company.

Cautionary Safe Harbor Statement under the United States Private Securities Litigation Reform Act of 1995.

Certain information contained in this Form 10-Q's forward looking information within the meaning of the Private Securities Litigation Act of 1995 (the "Act") which became law in December 1995. In order to obtain the benefits of the "safe harbor" provisions of the act for any such forwarding looking statements, the Company wishes to caution investors and prospective investors about significant factors which among others have affected the Company's actual results and are in the future likely to affect the Company's actual results and cause them to differ materially from those expressed in any such forward looking statements. This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, movements in the foreign exchange rate and the availability of additional financing for the Company. Investors are cautioned not to put undue reliance on forward-looking statements. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Additional information which could affect the Company's financial results is included in the Company's Form 10-K on file with the Securities and Exchange Commission.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company reports in CDN\$ and holds cash in Australian dollars. At September 30, 2011, this amounted to A\$40,001. A change in the exchange rate between the A\$ and the CDN\$ will have an effect on the amounts reported in the Company's consolidated financial statements, and create a foreign exchange gain or loss. A movement of 1% in the A\$ versus the CDN\$ exchange rate will have a CDN\$400 effect on the consolidated balance sheet and statement of operations.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures

Our principal executive officer and our principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 as amended) as of the end of the period covered by this report. Based on that evaluation, such principal executive officer and principal financial officer concluded that, the Company's disclosure controls and procedures were effective as of the end of the period covered by this report at the reasonable level of assurance.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the first quarter of fiscal 2012 that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

(c) Other

We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Therefore, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurance of achieving our desired control objectives, and our principal executive officer and principal financial officer have concluded, as of September 30, 2011, that our disclosure controls and procedures were effective in achieving that level of reasonable assurance.
