GOLDEN RIVER RESOURCES CORPORATION AND SUBSIDIARIES  
(An Exploration Stage Company)  
Notes to Consolidated Financial Statements  
September 30, 2006

**(1) Organisation**

Golden River Resources Corporation ("Golden River Resources"), formerly Bay Resources Ltd, is incorporated in the State of Delaware. The principal shareholder of Golden River Resources are companies associated with Mr JI Gutnick and Mrs S Gutnick. These companies owned \_\_\_% of Golden River Resources as of September 30, 2006. During fiscal 1998, Golden River Resources incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com Pty Ltd has not traded since incorporation. On August 21, 2000, Golden River Resources incorporated a new wholly owned subsidiary, Bay Resources (Asia) Pty Ltd (formerly Bayou International Pty Ltd), a corporation incorporated under the laws of Australia. In June 2002, the Company incorporated a new wholly owned subsidiary, Golden Bull Resources Corporation (formerly 4075251 Canada Inc), a corporation incorporated under the laws of Canada. Golden Bull Resources Corporation is undertaking exploration activities for gold in Canada. On March 8, 2006, shareholders approved the change of the Company's name to Golden River Resources.

**(2) Short-Term Advance Affiliate**

During the three months ending September 30, 2006 the Company repaid A\$1,329 owing to Joseph Gutnick, President of Golden River Resources.

**(3) Affiliate Transactions**

Golden River Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation.

Included in receivables at September 30, 2006 was A\$176,062 due by AXIS, an affiliated management company. At September 30, 2005 the Company owed AXIS A\$405,705. During the three months ending September 30, 2006 and 2005 AXIS advanced Golden River Resources A\$125,936 and A\$103,885, respectively including services in accordance with the service agreement of A\$95,936 and A\$88,885 respectively and advanced/reimbursed AXIS A\$319,000 and A\$2,850 respectively for outstanding amounts, including carried forward outstanding amounts and a short term advance to assist with the payment of anticipated future costs incurred on the behalf of the Company. During the three months ending September 30, 2005 AXIS charged interest of A\$7,906 at an interest rate of 9.35%. During the three months ending September 30, 2006 the Company charged AXIS interest of A\$3,463 at an interest rate between 9.35% to 9.80%. These entities are affiliated through common management and ownership.

Wilzed Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. During the three months ending September 30, 2005, Wilzed loaned the Company A\$77,433 and charged interest of A\$16,834. The interest rate charged by Wilzed for the three months was 9.35%. At September 30, 2005, the Company owed Wilzed A\$769,742. At September 30, 2006, there were no amount owing to Wilzed as they had been repaid in full during the three months ended June 30, 2006.

Interest expense incurred on loans and advances due to affiliated entities approximated A\$25,950 in the three months ended September 30, 2005 and \$nil in the three months ended September 30, 2006.

**(4) Going Concern**

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Golden River Resources as a going concern. Golden River Resources is in the exploration stage, has sustained recurring losses and has a net working capital deficiency which raises substantial doubts as to its ability to continue as a going concern. However, Golden River Resources anticipates that it will be able to defer repayment of obligations until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place.

GOLDEN RIVER RESOURCES CORPORATION AND SUBSIDIARIES  
(An Exploration Stage Company)  
Notes to Consolidated Financial Statements  
September 30, 2006

**(4) Going Concern (Cont'd)**

In addition Golden River Resources has historically relied on loans and advances from corporations affiliated with the President of Golden River Resources. Based on discussions with these affiliate companies, Golden River Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Golden River Resources has not confirmed any other arrangement for ongoing funding. As a result Golden River Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

The accumulated deficit of the Company from inception through September 30, 2006 amounted to A\$33,278,000 of which A\$6,876,000 has been accumulated from July 2002, the date the Company entered the Exploration Stage, through September 30, 2006.

**(5) Income Taxes**

Golden River Resources should have carried forward losses of approximately US\$22.6 million as of June 30, 2006 which will expire in the year 2007 through 2025. Golden River Resources will need to file tax returns for those years having losses on which returns have not been filed to establish the tax benefits of the net operating loss carry forwards. Due to the uncertainty of the availability and future utilization of those operating loss carry forwards, management has provided a full valuation against the related tax benefit.

**(6) Issue of Options under Stock Option Plan**

In October 2004, the Board of Directors and Remuneration Committee of the Company adopted a Stock Option Plan and agreed to issue 1,400,000 options and up to a further 500,000 options to acquire shares of common stock in the Company, at an exercise price of US\$1.00 per option, subject to shareholder approval which was subsequently received on January 27, 2005. Of the total 1,400,000 options issued, 350,000 vested immediately following shareholder approval, 50,000 vested on September 30, 2005, 333,331 vested on July 27, 2005, 333,334 vested on January 27, 2006 and 333,335 vested on July 27, 2006. If the additional 500,000 options were not granted as the proposed recipient had resigned. The exercise price of US\$1.00 was derived from the issue price of common stock from the placement of shares on September 30, 2004 and is considered by the Company's Directors to be the fair value of the common stock. The options expire on October 15, 2014.

The Company has accounted for all options issued in 2004 based upon their fair market value using the Black Scholes pricing model. There were no options issued by the Company in 2005 or 2006.

The Company has calculated the fair value of the 1,400,000 options using the Black Scholes valuation method using a share price of US\$1.00, strike price of US\$1.00, maturity period of 5 years 7 ½ months, risk free interest rate of 5.15% and volatility of 20%. This equates to a value of US31.85 cents per option. The total value of the options equates to A\$575,100 (US\$445,900) and is being amortized over the vesting period. For the three months ended September 30, 2006, the amortization amounted to A\$6,771.

On January 1, 2006, the Company adopted revised SFAS No.123, *Share-Based payment*, which addresses the accounting for share-based payment transactions in which a company receives employee services in exchange for (a) equity instruments of that company or (b) liabilities that are based on the fair value of the company's equity instruments or that may be settled by the issuance of such equity instruments. Because the Company had previously adopted the fair value recognition provisions of SFAS No. 123, the revised standard did not have a material impact on its financial statements.

GOLDEN RIVER RESOURCES CORPORATION AND SUBSIDIARIES  
(An Exploration Stage Company)  
Notes to Consolidated Financial Statements  
September 30, 2006

**(6) Issue of Options under Stock Option Plan (Cont'd)**

Consistent with the provisions of APB No.25, the Company recorded the fair value of stock option grants in stockholders equity and an offsetting deferred compensation amount within stockholders equity for the unearned stock compensation cost. Under SFAS No.123R an equity instrument is not considered to be issued until the instrument vests. Accordingly, as provided in SFAS No.123R, the Company has reversed the unamortized restricted stock compensation included in stockholders equity for the unvested portions of stock option grants awarded prior to the effective date of SFAS No.123R.

During the three months ended September 30, 2005, 50,000 options lapsed when Mr P. Ehrlich resigned as a Director and during the three months ended September 30, 2006 250,000 options lapsed when Mr P. Althaus resigned as Chief Operating Officer.

A summary of the options outstanding and exercisable at September 30, 2006 are as follows:

	<b>Outstanding</b>	<b>Exercisable</b>
Number of options	1,100,000	1,100,000
Exercise price	US\$1.00	US\$1.00
Expiration date	October 15, 2014	October 15, 2014

**(7) After Balance Date Event**

On October 19, 2006, the Directors of the Company agreed to offer a further 4,650,000 options under the Stock Option Plan. The options have no issue price, an exercise price of US30.84 cents, and a latest exercise date of October 19, 2016. The options vest 1/3 on October 19, 2007, 1/3 on October 19, 2008 and 1/3 on October 19, 2009. The Company is currently obtaining an external valuation on the options for the purpose of determining the amortization of the options.

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

### FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar and Canadian dollar during the periods indicated:

3 months ended September 30, 2005	A\$1.00 = US\$.7603
3 months ended September 30, 2006	A\$1.00 = US\$.7571
3 months ended September 30, 2005	A\$1.00 = CDN\$.8905
3 months ended September 30, 2006	A\$1.00 = CDN\$.8321

### RESULTS OF OPERATION

#### Three Months Ended September 30, 2006 vs. Three Months Ended September 30, 2005.

Revenue increased from A\$nil in the three months ended September 30, 2005 to A\$5,344 in the three months ended September 30, 2006. The increase in revenue is a result of interest earned on monies owed to the Company by AXIS (A\$3,463) and from the monies held in bank accounts \$A1, 881.

Costs and expenses increased from A\$308,000 in the three months ended September 30, 2005 to A\$533,000 in the three months ended September 30, 2006. The Company's financial statements are prepared in Australian dollars (A\$). A number of the costs and expenses of the Company are incurred in US\$ and CDN\$ and the conversion of these costs to A\$ means that the comparison of the three months ended September 30, 2006 to the three months ended September 30, 2005 does not always present a true comparison.

The increase in expenses is a net result of:

- a) a decrease in interest expense (net) from A\$26,000 for the three months ended September 30, 2005 to A\$nil for the three months ended September 30, 2006. For the three months ended September 30, 2006, the Company had no interest bearing liabilities as they had been repaid in full. AXIS provides management and geological services to the Company pursuant to a Service Deed dated November 25, 1988. AXIS charged A\$7,906 in interest on outstanding amounts at a rate of 9.35% for the three months to September 30, 2005 and Wilzed charged A\$16,834 in interest.
- b) an increase in legal, accounting and professional expense from A\$15,000 for the three months ended September 30, 2005 to A\$23,000 for the three months ended September 30, 2006 primarily as a result of additional work in reviewing the Form SB-2 for which there was no comparable amount in the three months ended September 30, 2005 .
- c) a decrease in administrative costs including salaries from A\$151,000 in the three months ended September 30, 2005 to A\$129,000 in the three months ended September 30, 2006, primarily as a result of reduced administrative salaries and costs following the resignation of the Chief Operating Officer.
- d) an increase in the exploration expenditure expense from A\$38,000 for the three months ended September 30, 2005 to A\$374,000 for the three months ended September 30, 2006 primarily as a result of increased exploration activity. The cost for the three months ended September 30, 2006 represents the field and sampling program undertaken at the Company's exploration properties within the Slave Craton in Nunavut, Canada. No field exploration was undertaken during the 2005 field season due to the high level of field exploration in the 2004 field season and limited funding.
- e) a decrease in stock based compensation from A\$78,000 for the three months ended September 30, 2005 to A\$7,000 for the three months ended September 30, 2006. Following shareholder approval on January 27, 2005 the Company issued 1,400,000 options pursuant to the 2004 Stock

Option Plan. Of the total 1,400,000 options issued, 350,000 vested immediately following shareholder approval, 50,000 vested on September 30, 2005, 333,331 vested on July 27, 2005, 333,334 vested on January 27, 2006 and the balance of 333,335 vested on July 27, 2006. The exercise price of US\$1.00 was derived from the issue price of common stock from the placement of shares on March 31, 2004 and is considered by the Company's Directors to be the fair value of the common stock. The Company has calculated the fair value of the 1,400,000 options issued in January 2005 using the Black Scholes valuation method using a share price of US\$1.00, strike price of US\$1.00, maturity period of 5 years 7 ½ months, risk free interest rate of 5.15% and volatility of 20%. This equates to a value of US\$31.85 cents per option or a total of A\$575,100. Of this amount, A\$6,771 has been amortized and charged to operations in the September 2006 quarter.

As a result of the foregoing, the loss from operations decreased from A\$308,000 for the three months ended September 30, 2005 to A\$528,000 for the three months ended September 30, 2006.

The net loss was A\$544,000 for the three months ended September 30, 2006 compared to a net loss of A\$315,000 for the three months ended September 30, 2005.

### Liquidity and Capital Resources

For the three months ended September 30, 2006, net cash used in operating activities was A\$962,000 primarily consisting of the net loss of A\$544,000; a decrease in receivables of A\$206,000 and a decrease in accounts payable and accrued expenses of A\$236,000.

Effective as of June 9, 2006, Golden River Resources, entered into a Subscription Agreement with RAB Special Situations Fund (Master) Limited ("RAB") pursuant to which the Company issued to RAB in a private placement transaction (the "Private Placement") for an aggregate purchase price of A\$2,000,000 (US\$1,542,000): (i) 10,000,000 special warrants (the "Special Warrants"), each of which is exercisable at any time to acquire, without additional consideration, one (1) share (the "Special Warrant Shares") of Common Stock, US\$0.001 par value ("Common Stock"), of the Company, and (ii) warrants (the "Warrants") for the purchase of 20,000,000 shares of Common Stock, US\$0.001 par value (the "Warrant Shares"), at an exercise price of A\$0.20 (US\$0.1542) to be exercisable until April 30, 2011.

The Company agreed to prepare and file with the Securities and Exchange Commission a registration statement covering the resale of the shares of Common Stock issuable upon exercise of the Special Warrants and the Warrants. The Company is required to prepare and file with the SEC within sixty (60) calendar days after the Closing Date (the "**Filing Deadline**") a registration statement at the sole expense of the Company, in respect of the Subscriber, so as to permit a public offering and resale of the Common Stock acquirable upon conversion of the Special Warrants, the Common Stock acquirable upon exercise of the Warrants and the Common Stock issued as Liquidated Damages (collectively, the "**Registrable Securities**") in the United States under the 1933 Act by the Subscriber as selling stockholder and not as underwriter. Golden River shall use its best efforts to cause such Registration Statement to become effective as soon as possible thereafter, and within the earlier of: (i) one hundred twenty (120) calendar days after the Closing Date (one hundred and fifty (150) calendar days in the event the SEC shall elect to review the Registration Statement), or (ii) five (5) calendar days of the SEC clearance to request acceleration of effectiveness (the "**Effectiveness Deadline**"). The Company agreed that in the event that the Registration Statement to be filed by the Company is not filed with the SEC on or before the Filing Deadline, or (ii) such Registration Statement is not declared effective by the SEC on or before the Effectiveness Deadline, then the Company shall (x) for the period commencing on the sixty first (61<sup>st</sup>) day after the Closing Date and on the first day of each month thereafter until the date that the Registration Statement is filed and (y) for the period commencing on the one hundred twenty first (121<sup>st</sup>) day after the Closing Date (the one hundred fifty first (151<sup>st</sup>) day after the Closing Date in the event the SEC shall elect to review the Registration Statement) the Company will pay to the Subscriber as liquidated damages and not as a penalty for such failure (the "**Liquidated Damages**"): on the first day of each month thereafter until the Registration Statement is declared effective by the SEC either: (A) a cash payment equal to 2% of the Purchase Price or (B) at the sole election of the Subscriber, shares of Common Stock equal to 2% of the number of shares of Common Stock purchased by the Subscriber.

### **Liquidity and Capital Resources (Cont'd)**

Once such registration statement has been filed and declared effective, the Company is obligated to keep such registration statement effective until the earlier of (i) the date that all of the Registrable Securities have been sold pursuant to such registration statement, (ii) all Registrable Securities have been otherwise transferred to persons who may trade such shares without restriction under the Securities Act, and the Company has delivered a new certificate or other evidence of ownership for such securities not bearing a restrictive legend, or (iii) all Registrable Securities may be sold at any time, without volume or manner of sale limitations pursuant to Rule 144(k) or any similar provision then in effect under the Securities Act; or (iv) 2 years from the effective date.

The Company met the Filing Deadline and the SEC declared the registration statement effective in October 2006.

As of September 30, 2006 the Company had short-term obligations of A\$315,000 comprising accounts payable and accrued expenses.

We have A\$1,047,000 in cash at September 30, 2006. We are investigating the possibility of raising cash flow through money in Canada for exploration purposes.

During fiscal 2004 and 2005, we undertook a field exploration program on our Committee Bay and Slave Properties. In relation to the Committee Bay Properties, this was more than the minimum required expenditure and as a result, we do not have a legal obligation to undertake further exploration on those properties during their life. However our properties are prospective for gold and other minerals. We undertook further exploration in August 2006 on the Slave Properties and to date we have spent A\$374,000. We are currently investigating capital raising opportunities which may be in the form of either equity or debt, to provide funding for working capital purposes and future exploration programs. There can be no assurance that such a capital raising will be successful, or that even if an offer of financing is received by the Company, it is on terms acceptable to the Company.
