Item 8.01 Other Events

On October 15, 2004, the Remuneration Committee and the Board of Directors of the Company adopted the 2004 stock option plan of Bay Resources Ltd.

The plan was established to recognize contributions made by bona fide directors, officers, employees, management company employees, consultants or company consultants, and also includes a Company, of which 100% of the share capital is beneficially owned by one or more service providers ("service provider"). The maximum aggregate number of shares that may be reserved for issuance under the plan at any point of time is 10% of the outstanding shares at the time planned shares are reserved for issuance as a result of the grant of an option, less any common shares reserved for issuance under share options granted under share compensation arrangements other than this plan.

Options to purchase common shares may be granted under the plan to service providers from time to time by the Board.

Options issued under the plan can be exercisable for a maximum of 10 years from the effective date. to the extent that such optionee was vested in the option at the date the optionee ceased to be employed or to provide services to the Company; and, in the case of the optionee being dismissed from employment or service for cause, such optionees, whether or not vested at the date of dismissal will immediately terminate without right to exercise the same.

Options will be exercisable only by the optionee to whom they are granted and will not be re-assignable of transferable.

The number of common shares subject to an option will be subject to adjustment in the case of sub division of common shares, consolidation of common shares, capital raising, reorganization, reclassification or change of outstanding equity shares of the Company.

Options granted pursuant to the plan to Directors, officers and all employees and consultants employed or retained by the Company for a period of more than 6 months at the time the option is granted will vest as follows:-

- (i) One third of the total number of options granted will vest six months after the date of grant;
- (ii) A further one third of the total number of options granted will vest one year after the date of grant; and
- (iii) The remaining one third of the total number of options granted will vest 18 months after the date of grant.

Options granted pursuant to the plan to the employer or consultant who has been employed or retained by the Company for a period of less than six months at the time the option is granted will vest as follows:

- (i) One third of the total number of options granted will vest one year after the date of grant;
